

20 Watt DRT Chassis Mount DC/DC Single Series

- Efficiency up to 91%
- 4:1 Input Range
- Fully Regulated Output Voltage
- 2500VDC Isolation
- Short Circuit Protection
- Over Voltage Protection
- Remote On/Off
- UL60950 Approved
- RoHS Compliant

Control Input Current (On) Vctrl = 5.0V			0.5	mA
Control Input Current (Off) Vctrl = 0V			-0.5	mA
Control Common	Referenced to Negative Input			

Notes:

1. Specifications typical at Ta=+25°C, resistive load, nominal input voltage, full rated output current unless otherwise noted.
2. Transient recovery time is measured to within 1% error band for a step change in output load 75% to 100%.
3. ConTech power converters require a minimum output loading to maintain specified regulation. Operation under no-load conditions will not damage these modules; however, they may not meet all specifications listed.
4. The series has a limitation of a maximum connected capacitance at the output. The power module may be operated in current limiting mode during start-up, affecting the ramp-up and the startup time.
5. When measuring peak-to-peak output noise, use a Cout 0.47µF ceramic capacitor. Scope measurement should be made by using a BNC socket, measurement bandwidth is 0-20MHz. Position the load between 2" and 2.5" from the converter.
6. See ConTech website for Definition of Terms, Application Notes, and Test Setups and Parameters. www.ConTech-us.com/appnotes.html.
7. Specifications subject to change without notice.
8. See ConTech website www.ConTech-us.com/pdf/rohs.pdf for RoHS Statement.
